Abstract

Our recently proposed name, Justicia hansenii, typified by K. Rueangsawang 258 (KKU), was established for a species found in the providence of Prachaup Khiri Khan, southwestern Thailand. Irina Belyaeva-Chamberlain (K) pointed out that our name was a later homonym of J. hansenii Sivar. & P. Mathew, a southern Indian species. Therefore, the new name is proposed with the epithet based on the province of the type location, Prachaup Khiri Khan.

Acknowledgement

We thank Irina Belyaeva-Chamberlain from the Royal Botanic Gardens, Kew for bringing this to our attention.
